ABX Fence

Breaking into an ABX Welded Wire Fence is a tough, time-consuming task. Its robust strength not only provides reliable security but also enhances your property with timeless elegance.

286
Single Wire Mesh

ABX 286 panels are aesthetically attractive and a cost-efficient alternative to traditional ornamental fencing. The special 3D technique ensures that in spite of its limited weight, this profiled panel is still astoundingly stable.

284
Single Wire Mesh

ABX 284 panels are a great entry-level, double wire fence system and the perfect solution to address the drawbacks associated with chain link fence. The strong and rigid panel offers a stable and cost-effective solution for absolute security.

280
Single Wire Mesh

ABX 280 panels combine beauty with our strongest double wire panel. The welding of the wire interfaces are intended for intense security use and made to resist the onslaught of even the most motivated trespassers.

358
Single Wire Mesh

ABX 358 panels provide an extraordinary high security solution. The small mesh openings make it nearly impossible to scale and very difficult to cut.

354
Single Wire Mesh

ABX 354 panels provide the highest level of security. The small mesh size combined with additional horizontal double wires ensure a strong and rigid panel.
