

HEAVY DUTY GRIP STRUT STAIR TREADS

Heavy Duty Grip Strut Stair Treads									
Allowable loads and deflections: U=Uniform load (lb./ft. ²) C= Concentrated load (lb.) D=Deflection (in.)									
Material	Thickness	Depth in.	Weight lb./in. ft.	Catalog Number	Load Type	Clear Span			
						2'-0"	2'-6"	3'-0"	4'-0"
Steel	10 ga.	2"	7.4	HT22010	U	2412	1544	1026	629
					C	1860	1487	1240	929

- (1) See "General load information" in the Technical Information section of website for explanation of design load deflection conditions.
- (2) For stair treads, intermediate stringer is recommended for spans over 4 feet.
